Subject: Notification Pursuant to 18 V.S.A. § 4637(c)

To the Office of the Attorney General of Vermont:

On August 17, 2020, Genentech USA, Inc. ("Genentech") notified the Office of the Attorney General of Vermont of a new prescription drug (Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL)), pursuant to § 4637(b). Genentech hereby notifies the Attorney General of Vermont of the following additional information, pursuant to § 4637(c):

Name of New Prescription Drug	NDC Number	Date of Commercial Availability	WAC (Wholesale Acquisition Cost) (As of the Date of Commercial Availability)
Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL)	50242-0175-07	August 17, 2020	\$11,170.43

Description of the marketing and pricing plans used in the launch of Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL) in the United States and internationally:

Marketing activities that support the launch of a new medicine are designed to raise awareness and understanding with healthcare providers and - in some cases - patients about the approved indication(s), efficacy and safety data contained within the medicine's FDA approved label.

We take decisions related to the prices of our medicines very seriously. When determining pricing, we consider a number of factors including: how well the medicine works and how it compares to other available treatments; the financial resources required to continue discovering new medicines for people with serious diseases; and how to ensure that the price doesn't prevent our medicines getting to people who need them.

Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL) was granted both breakthrough designation and priority review.

The estimated volume of patients who may be prescribed Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL):

Genentech does not publicly disclose the estimated volume of patients who may be prescribed Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL)

The date and price of acquisition if the drug was not developed by the manufacturer:

Evrysdi 60mg/80mL oral powder (constituted to 0.75 mg/mL) was developed by Genentech USA Inc. and was not acquired from a third party.

Sincerely,

Maria Aquilina
